# **Products & Services Portfolio**

# LINK S.A. Activities & Expertise

- Representation of well established international telecommunication equipment vendors
- Manufacturing and Integration of optical network equipment
- Turn key fiber optic networks implementation
- Submarine fiber optic links construction
- Access networks implementation (copper or fiber xDSL/ xPON / Ethernet)
- Technical Support & Maintenance Services
- Consultancy Services on the field of fiber optic networks

## **Our International Partners**

### **Key Accounts**

ΚΟΙΝΩΝΙΑ ΤΗΣ ΠΛΗΡΟΦΟΡΙΑΣ

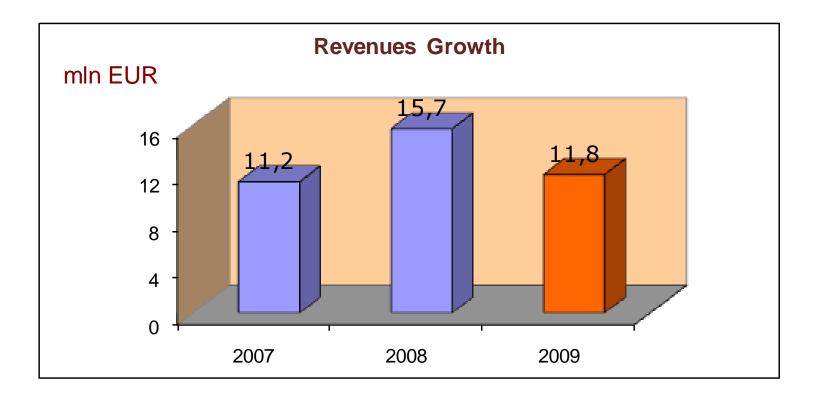

## Accomplishments

- More than 1500km complete construction of fiber optic network
- Design, Installation & Maintenance of ON Telecom's CWDM metro transmission network
- Design, Installation & Maintenance of more then 60 xDSL MSAN nodes for HOL
- ZEP Kozanis FTTH Project

#### **Revenues Growth**

## **Market Opportunities**

- Broadband infrastructure projects financed by EC
- Operators' demand for innovative products and services
- The trend for fast deployment of Fiber To The Home (FTTH)
- New customers with specific broadband needs

## **Future Goals**

- Strengthen our position on the broadband telecommunication market
- Expand towards the wider Balkan area
- Enlarge our integrated telecom products and services
- Enhance our presence on the Energy cabling and infrastructure market

## **Our FTTH Network Policy**

- Developing a complete yet versatile portfolio that can be adjusted to all possible types of FTTH network requirements
- Selecting the optimal combination of equipment and practices aiming to fulfil operators' needs
- Proposing practical, operational and cost effective solutions adjusted to the local landscape

#### <u>Products</u>

**Cables** 

#### <u>Fibers</u>

• OFS AllWave® Zero Water Peak (ZWP) single-mode optical fiber is the industry's first full-spectrum fiber designed for optical transmission systems operating over the entire wavelength range from 1260 nm to 1625 nm

#### **Blown Cables**

- MiDia ® FX Cable: reduced diameter, blown cable, up to 144 fibers
- AccuBreeze<sup>™</sup> FX Cabled Fiber Unit: up to 12 fibers bundle

## Multiducts & Accessories

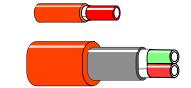

Complete dimension variety
Direct Burial & Direct Installation products

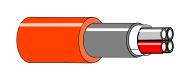

• Inner Aluminum sheath to provide better moisture and anti rodent performance

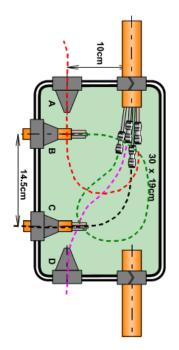

#### Civil Works / Mini and Micro Trenching Techniques

# to the second se

#### ITU-T Recommendations L.48/L.49

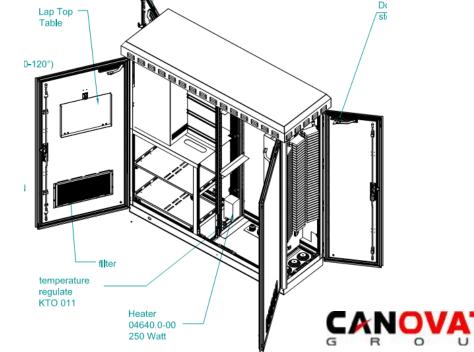

#### <u>Products</u>

## **Outdoor Cabinets**

- Customised Cabinets for outdoor installations
- Aluminium or stainless steel frame
- Special design for active equipment hosting (heat exchanger, filters, fans, double wall IP 55 e.tc.)

## **Power Supplies**

- DC Power Systems from 500W to 15,6KW
- N+1 power redundancy
- Hot swappable and field replaceable rectifiers
- Remote Feeding system up to 900W
- New enhanced NMS

# **Central Office ODFs**

- MultiCircuit and SingleCircuit compact module technology for FrontAccess
- Ultra High Density systems
- Static fiber management without moving parts
- Modular frame design

<u>Products</u>

### **Passive Network Components**

#### Optical splitters - attenuators - jumper wires - pig tails

## **Passive Network Components**

0

#### **RF** Coaxial Cables and Connectors

## **Optical Distribution Frames**

#### High and Medium Density Modular Distribution Frames

## **Splice Closures**

Multi circuit splice closures BPEO & Dome

•Single circuit and ODF type splice closures

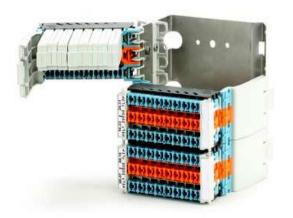

<u>Products</u>

## Fast Mechanical Connectivity

<u>3M™ BRCP integrated splitter block</u> Terminal block for all access ports in xDSL transmission

<u>The 3M<sup>™</sup> High Density Block BRCP-HD</u> High Density Terminal Block for xDSL and NGN Equipment Interconnection

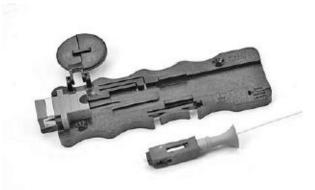

# Fast Mechanical Connectivity

- Fibrlok mechanical connector
- Loss =0,1 dB
- Time to connect <2 min</li>
- No need for expensive splicing equipment

- No Polish mechanical connectors
- Loss =0,5 dB
- Time to connect <2 min</li>
- No need for expensive splicing equipment

## Structure cabling products

#### Server racks, Cat 6a,6 & 5e Patch Panels, jacks and cables

Complete indoor optical solutions "Plug n Play system"

#### <u>Products</u>

# **Transport Solutions**

- DWDM & CWDM Carrier Grade systems
- Up to 40G traffic Capacity
- Support for extended distances up to 250km
- SNMP and browser-based GUI NMS
- Multi-protocol service ports
- Various solutions on Optical Filters

## Network Access Solutions

- ADSL2+ / VDSL2 / EFM services
- Narrowband, Specials, T1 / E1
- Universal Access for Triple Play
- Resilient Packet Ring (RPR)
- Integrated Voice Gateway: GR-303 / V5.2

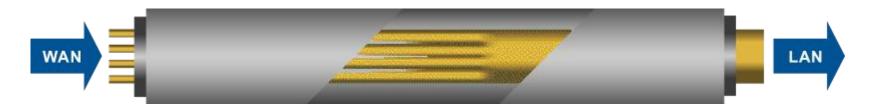

# EFM Technology Advantages ØZHONE

EFM enables any service, over any wire, to deliver Ethernet access anywhere.

Fiber capacity & quality over copper pairs

- Lower Overhead
- Lower BER
- Hitless operation resilient bonding
- Low jitter & latency
- QoS and CoS prioritization & shaping

### **EFM Achievable Data Rates ZHONE**

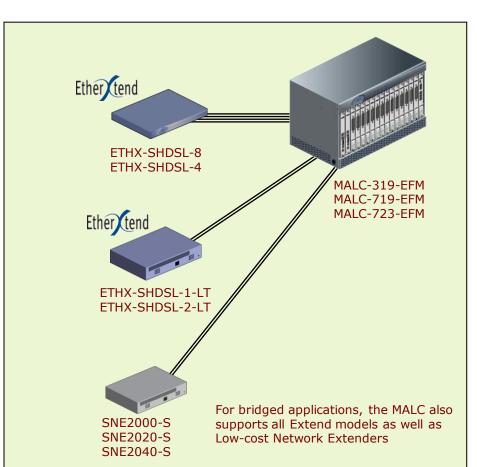

Distance (m) SHDSL	Normal Rate (1 line)	Loop Bonded (2 lines)	Data Rate (4 lines)	Data Rate (8 lines)
1350	5,7 Mbps	11,4 Mbps	22,8 Mbps	45 Mbps
2400	4 Mbps	8 Mbps	16 Mbps	32 Mbps
3000	2,6 Mbps	5 Mbps	10 Mbps	20 Mbps
3660	2,064 Mbps	4,128 Mbps	8,25 Mbps	16 Mbps
5040	784 Kbps	1,56 Mbps	3,12 Mbps	6 Mbps
5520	528 Kbps	1,05 Mbps	2,1 Mbps	4 Mbps
5820	400 Kbps	800 Kbps	1,6 Mbps	3 Mbps
6060	272 Kbps	544 Kbps	1 Mbps	2 Mbps
7620	144 Kbps	288 Kbps	576 Kbps	1 Mbps

**EFM Deployment Options** 

Many carriers upgrade to Carrier Ethernet using EFM Or Ethernet over copper (EoC) for E-Line, E-LAN and VPLS services.

ZHONE

Up to 45,6 Mbps by bonding 8 G.SHDSL.bis pairs.

Other deployment options include:

- Point to Point (EtherXtend)
- Multi Point (EtherXtend)

FTTx – WDM PON

#### **Ethernet Access 1100** Next Generation Fiber Access platform with an evolution to 40G per slot

Carrier-grade 11-slot chassis, 8 Service Slots

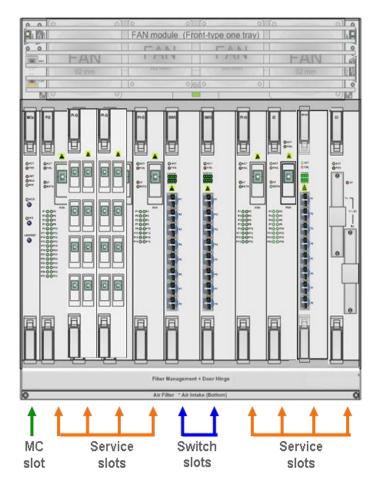

- •19" (W) x 10U (H) x 14" (D); 4 shelves/2.2m rack
- Integrated cooling units & maintenance ports
- •8 Universal Service Slots

Integrated Packet Fabric

- Redundant, 1+1 protected 240G Switch Fabric
- Up to 8 SFP+ uplinks (GE / 10GE) per Switch card

Service Interfaces

- Ethernet WDM PON
  - Single Port/Single Fiber Working/Colourless
  - ITU-T G.8032 E-SPRING Support
  - •32 wavelength / 100Mbps
  - •16/32 wavelength / 1Gbps
- E1/T1 Circuit Emulation Service card
  - 32xE1/T1 per CES interface card

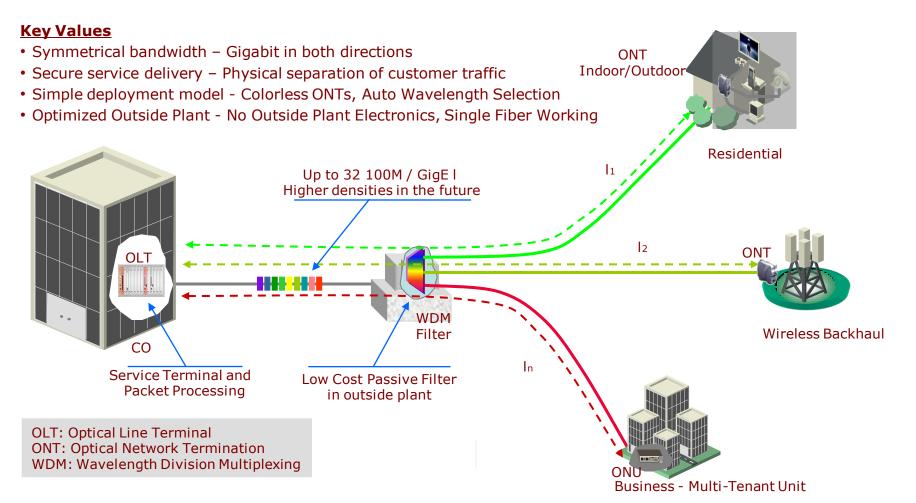

#### <u>Products</u>

## FTTX – WDM PON 🚯 LG-ERICSSON ≶

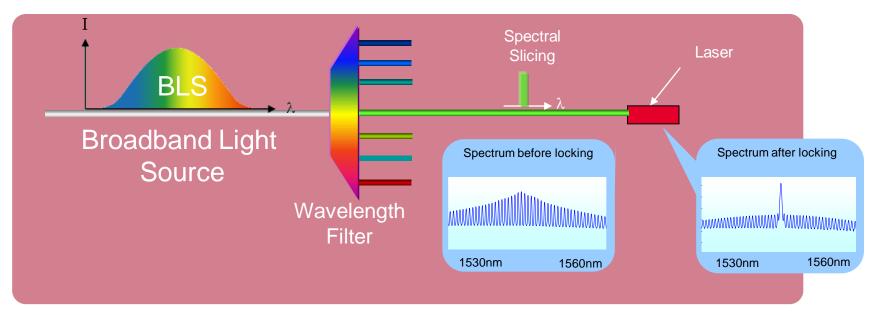

FTTX – WDM PON 🚯 LG-ERICSSON ≶

#### Automatic Wavelength Locking

**Colourless** ONUs

→Low inventory management cost
 →Elimination of high cost wavelength-specific lasers

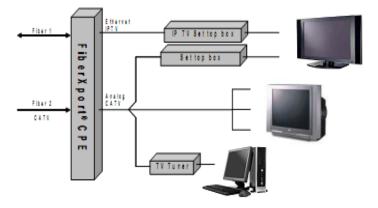

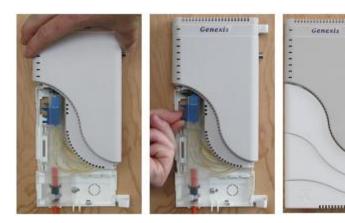

## FTTH CPEs

- Double Functionality Fiber Termination + CPE
- Media Converter Functionality or
- Managed Ethernet Gateway or
- Managed Ethernet + VoIP Gateway or
- Managed Gigabit Ethernet Gateway

# **Special Access Applications**

- Network Ethernet extenders
- DSL CPEs
- Voip Gateways & Routers

## **Professional Services**

- First & Second Level Support for layer 2 technologies
- Installation & Commissioning services
- Acceptance testing services
- Network Design and implementation services (turn key Projects)
