

LINK S.A. Projects Aggregation Table

Last Update: February 2010

No	PROJECT DESCRIPTION	PROJECT OWNER
1	Supply, installation and maintenance of the FTTH network at ZEP Kozanis. Three hundred houses were individually connected, making this the biggest FTTH community currently in Greece. The network was based on a point to point access architecture utilizing one fiber per user and thus able to offer advanced triple-play services (This project was financed by EU).	MUNICIPALITY OF KOZANI
2	Construction of optical network (2,5 km).	OTE S.A.
3	Supply, installation and maintenance of: a) 9 km fiber optic backbone network and b) wired and wireless access networking equipment (This project is financed by EU).	MUNICIPALITY OF AMFISSA
4	Development of Broadband Network infrastructure (supply, installation, technical support & maintenance of DSLAM network in Athens area)	HELLAS ON LINE
5	Supply, installation and maintenance of: a) 11 km fiber optic backbone network and b) wired access networking equipment (This project was financed by EU).	MUNICIPALITY OF KORINTHOS
6	Submarine fiber optic cable installation of 4km length, in the Rio - Antirio region.	TELLAS S.A.
7	Supply, installation and maintenance of: a) 4.6 km fiber optic backbone network and b) wired access networking equipment (This project was financed by EU).	MUNICIPALITY OF XYLOKASTRO
8	Backbone Fiber Optic network - ZONE 5 (study, configuration, installation, verification and maintenance of 110 km fiber optic network in Crete). (This project was financed by EC).	CYTA HELLAS
9	Supply, installation and maintenance of: a) 5 km fiber optic backbone network and b) wired access networking equipment (This project was financed by EU).	MUNICIPALITY OF ARGOSTOLI
10	Installation of a special OPGW optical cable (interconnections, terminations and network verification). The project was implemented during the development of the telecommunications infrastructure in PPC's existing ultra-high voltage network (150 / 400 kV power pylons).	PUBLIC POWER CORPORATION S.A.
11	Supply, installation and maintenance of: a) 12 km fiber optic backbone network and b) wired access networking equipment (This project was financed by EU).	MUNICIPALITY OF CORFU
12	CWDM backbone network (supply, installation, technical support & maintenance of 60 POPs in Athens area).	ON TELECOMS
13	Supply, installation and maintenance of: a) 5 km fiber optic backbone network and b) wired and wireless access networking equipment (This project was financed by EU).	MUNICIPALITY OF NAFPLIO
14	Submarine fiber optic cable installation of 4 km length, in the Rio - Antirio region.	HELLAS ON LINE
15	Supply, installation and maintenance of: a) 3,47 km fiber optic backbone network and b) wired access networking equipment (This project was financed by EU).	MUNICIPALITY OF ORCHOMENOS
16	Backbone Fiber Optic network - ZONE 3 (study, configuration, installation, verification and maintenance of 450 km fiber optic network in Crete and Peloponnesus) (This project was financed by EU).	TELLAS S.A.
17	Supply, installation and maintenance of: a) 3,6 km fiber optic backbone network and b) wired access networking equipment (This project was financed by EU).	MUNICIPALITY OF LEFKADA
18	Fiber optic cable installation of 136 km length, along with the "natural gas pipe" of DEPA (Komotini - Thessalonica).	DEPA S.A.
19	Supply, installation and maintenance of: a) 8 km fiber optic backbone network and b) wired access networking equipment (This project was financed by EU).	MUNICIPALITY OF ZAKYNTHOS
20	Fiber To The Building - FTTB (installation & maintenance).	ATTICA TELECOM S.A.
21	Metropolitan Fiber Optic network in Athens, Larisa, Thessalonica (study, configuration, installation and verification of 8 km fiber optic network)	TELLAS S.A.
22	Metropolitan Optical Network in Athens (study, configuration, installation, verification and maintenance of 140 km fiber optic network in Athens).	ATTICA TELECOM S.A.
23	Construction of optical network (30 km).	MEDITERRANEAN NAUTILUS
24	Backbone fiber optic network for the cities Arta – Preveza - Ioannina (study, configuration, installation and verification of 98 km fiber optic network).	HELLAS ON LINE
25	Study, supply, installation and maintenance of 135 km fiber optic network.	VESTITEL HELLAS
26	Maintenance of ATTICA TELECOM's Metropolitan Network in Athens, including the interconnections with Med Nautilus' network infrastructure (in Attica and Crete).	ATTICA TELECOM S.A.
27	Construction of submarine fiber optic cable connectors.	OTE S.A.
28	Construction of optical network (20km).	INTERNATIONAL AIRPORT "EL. VENIZELOS"

<i>No</i>	<i>PROJECT DESCRIPTION</i>	<i>PROJECT OWNER</i>
29	Development of pure optical transformers for optical multiplexing applications.	UNIVERSITY OF ATHENS
30	Installation of an 8 km copper network. The project was implemented during the development of the airport's telecommunications infrastructure.	INTERNATIONAL AIRPORT "EL. VENIZELOS"
